

WEB-233

Final Projects

Pet Store

Challenges Encountered

2

01 Organization

I organized the pages about halfway through development of the website (I should've done this from the start)

02 Cart

The cart was probably the most difficult part of the assignment since it was the most complex

03 Loading Buttons

The loading I added to the buttons was a small visual upgrade but was quite complex to implement into the website

Included CDN's/Imported Content

01 Splide

Used to create the carousel on the home page

02 JQuery

Used to create most of the websites interactivity

03 Leaflet

Used to create the map on the contact us page

04 Lightbox

Creates the lightbox for the carousel on the home page

05 Images

All free to use from Pexels

06 States

The states.json file came from [mshafir](#) on github

GitHub
